Philadelphia Independence Volunteer Opportunities

The Philadelphia Independence is looking for people who are leaders in their business and soccer communities.....people who believe in professional women's soccer and want to see the new league and the Independence succeed. As you know the ultimate success of WPS and our team in Philly will not only depend on the quality of play on the field, but also on our ability to have a great volunteer base on game day.

There are several positions still available. If you are interested please contact Julie Sheehy. All volunteers must be at least 18 yrs old.

The season will kick off on April 11th with the franchise's inaugural match against the Atlanta Beat, with the final regular season game played on September 12th. The Independence will play 12 games at home during the regular season at West Chester University.

This is an exciting opportunity to get involved and support Women's soccer.
